EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1, line 6, change "portion" to ---portions---.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: In Nakamura, the coils 13b/13c are perpendicular to the magnetic force lines, but the coil 13a lies in a plane parallel with the magnetic force lines. Similarly, the planes of coils 44/ 45 in Suzuki and 6/7 in Anzai are both parallel to the respective lines of magnetic flux which drive the coils in their respective directions. Finally, none of the prior art shows second coil sets located at the lateral end of the force line generator (i.e., coils 231 and 232 are located laterally with respect to the longitudinal axis defined by the magnets 211/212 in applicant's Fig.4A). In Fujita, the coils 9 are located near the longitudinal ends of the force line generator (Fig.2), i.e., adjacent N poles of magnets 4a/4b. Similarly, in Song the coils 128/130 (Fig.3) are located adjacent the poles of magnets 132/134. Regarding claim 8, the prior art does not teach a first coil set "surrounding" the magnetic force line generator and a second coil set "sandwiching" the force line generator as shown in applicant's Fig.4A.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
4. The proposed drawing correction and/or the proposed substitute sheets of drawings, filed on April 1, 2003 have been accepted by the examiner. A proper drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The correction to the drawings will not be held in abeyance.
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Burton S. Mullins whose telephone number is 305-7063. The examiner can normally be reached on Monday-Friday, 9 am to 5 pm. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nestor Ramirez can be reached on 308-1371.
